

# Project-Based Inquiry Science™ CyberPD

---

August 17, 2015

Dear Educators,

Greetings as you begin your 2015-16 school year.

You may be interested to know that we have made some changes on the *PBIS CyberPD* site. For example, you will see some improvements to the navigation structure. The Table of Contents Tab on the Unit pages now has a dropdown menu that is easier to use.

Also, we have created and added NGSS-aligned Storylines for each Unit. You will find them all on the Welcome Page as well as on each Unit Home Page. They are in draft format, but they will still be helpful as you align your instruction to the 3-Dimensional approach outlined in *The Framework* and NGSS. We will be finalizing them throughout the next few months.

Please return to this Update Tab periodically as we continue to make additional improvements to the *PBIS CyberPD* site.

Your feedback, of course, is always welcome. Send your comments or thoughts to: [info@pbiscyberpd.org](mailto:info@pbiscyberpd.org)

Have a great year,

The *PBIS CyberPD* Team
